COAL ROADS DENY CHARGES.

File Another Reply to The Federal Government.

Philadelphia, Sept. 4.—Another answer, that of the Temple Iron company, was filed in the United States circuit court here yesterday in the suit of the federal government against the railroads and coal companies that are charged with maintaining a monopoly of the suthracite coal industry in restraint of trade. The government charged that certain of the anthracite coal carrying roads prevented the construction by independent coal operators of a railroad to carry their product to tidewater and that they forced the independents to turn their coal over to the railroads, which had formed a pool to handle this traffic. In order to make the pool effec-tive the railroads purchased the entire capital stock, \$240,000, of the Temple Iron company, which operated a small iron furnace near Reading, Pa., but which had the right under its charter to own and operate coal mines. The answer denies that the coal roads purchased the capital stock of the company and also denies that the Temple Iron

For the last 10 days she has been living at the Earle home in Monroe, N. J., with the wife's consent. The affiair has in most respects, run as mosthly as the courses of the stars ince it was discovered that the present Mrs. Earle was not the heaven destined wife of the artist.

"The coming of the child made it loubly hard to take the logical step Whatever interests husband and wife may have that are far apart they are sentered in one great thing-the child," says Earle.

"But constantly I believed more and more that a man and woman are in orment when they are not finities. Mr. Earle is the son of the late Gen. On a Canadian Pacific Railway Train Ferdinand P. Earle, the hotel man, and, Going to the Toronto Exhibition-Dash to Death as the Train Took Horseshoe Curve.

> Orangeville, Ont., Sept. 4 .- A Canadian Pacific railway special train, carrying over 300 passengers bound for the Toronto exhibition, was wreeked yesterday morning at Horseshoe Falls, nine miles south of here.

Six persons were killed, names unknown, and over 250 injured.

The train left Markdale at 6:30 a. m. and pulled into Orangeville at 0:15, one hour late. Half an hour later the locomotive jumped the rails on the down grade of the Horseshoe curve of the Caledon mountain. Five crowded cars were piled up on the locomotive.

Nearly every seat was filled, and peo-ple were standing in the aisles. All fierce shock. Not less than 300 passengers were in the cars that left the rails. Of these at least 250 were injured, many of them futally, and six were killed

The only explanation of the disaster so far is that the engineer was trying to make up time, and took the Horse-shoe curve at a high speed.
